

# Easy, convenient and secure check acceptance

## Easy check acceptance

Converts a paper check into an electronic transaction, processing it through ACH and depositing it into the appropriate account.

## No bounced checks or NSF fees

Check Guarantee, included with check conversion, provides security similar to credit cards and boasts 48 hour funding even if the check is bad.

## More secure transactions

Creating an electronic process allows for similar security and convenience to that of a credit card transaction.

## 24 hour reporting

All check programs include free web-based reporting for transaction details and account reconciliation.

## Accommodates your customers

Consumers that prefer to write a check will still have the means to do so without being turned away.

## No physical deposit

With electronic deposits, there is no need for daily trips to deposit checks.

## Virtual check

Using the Virtual Terminal check option, checks are processed electronically with payment data entered directly at the time of purchase.

## Ancillary check services

Additional check products and services are available.
