Why should you partner with us?

Baltic State Bank has partnered with Round 2 to offer our customers world class credit card processing at the lowest cost and with the best customer service available in the merchant processing Industry.

Round 2 provides you the latest terminal options with the ability to run transactions via Internet, telephone line or 4G SIM card. This lets you process credit and debit cards from virtually anywhere at the lowest the rates.

Round 2 is raising the bar in the payments industry by offering a personal touch to every installation it does. Round 2 will walk you through the process of becoming PCI compliant to eliminate the industry fee for not passing the PCI audit and show you how to access your processing merchant portal to retrieve your reporting and statements. Round 2 will always take the extra steps to make sure you are taken care of.

Round 2 offers:

Payment Gateway – Allows for payment processing via most shopping carts, invoicing and recurring payments.

Traditional Terminal Processing – Uses the latest terminal technology.

Cash Discounting – Accept credit and debit as payment with no cost to your business by passing the processing fee onto your customer.

Gift Card Program – Allow your customers to promote your business and also invites others to do business with you.

Build customer loyalty through cash discounting

Process for free with Round 2's cash discounting program.

Cash discounting allows your customers to save money with cash purchases and for you to cover the cost of your credit and debit transactions.

Round 2 provides you with the highest level of support for your payment processing needs, as well as the ability to use modern operating systems for fast and efficient processing with the highest level of security.

Offer a discount to customers paying with cash. Customers using non-cash payments pay your transaction fees.

Provide clear signage which explains your pricing for customers.

Compliant with current cash discounting best practices.

Payment Gateway

Access to all the features you need to run your business.

Today's businesses demand more ways to collect payments and process secure transactions from your website or mobile device. When paired with your shopping cart (125 shopping cart integrations) this allows you the peace of mind of providing top level security for your customers and your business.

The Payment Gateway can also be used for invoicing your customers with a link to the payment page; recurring billing for installments or scheduled payments; remote access for processing from anywhere Internet access is available.

E-Commerce:

The simple, fast and efficient way to process credit card payments online.

Electronic Invoicing:

Send invoices right to customer's inboxes.

Recurring Billing:

Supports recurring plans and memberships.
